

# Partner Requirements

## And How To Become A Partner

Revision: 2.0  
Updated: 1<sup>st</sup> July 2025

### Partner Overview

CanIPhish partners get full access to partner functionality, including multi-tenant management and the ability to use the platform to provide a managed service.

Your trial already includes these features, so you can evaluate the platform before committing. To keep access beyond the trial, just meet the requirements below.

### Partner Requirements

To activate your partner account after the trial ends, you'll need to:

- **Purchase an Enterprise subscription with 100 or more users and;**
- **Sign our Partner Agreement**

As long as these requirements are maintained, partner functionality will remain enabled on your account.

### How To Become A Partner

1

#### Let us know you're ready

Express your interest in becoming a partner and confirm how many users you plan to start with on an Enterprise subscription.

2

#### We'll send the next steps

We'll issue an invoice with a payment link and provide the Partner Agreement via DocuSign for you to review and sign.

3

#### Get activated

Once payment is received and the agreement is signed, your trial account will be fully activated as a partner account with ongoing access to partner functionality.
